Note: *If you would prefer to watch a video, click the image below and watch our Introduction Video to SocialMonkee. It will help you understand what SocialMonkee is, how it works, and how to use it. For more details, on how to use SocialMonkee for example, make sure you read the guide as it covers a lot more topics than the introduction video.*

Important: Watch This First: 

Note that the system allows you to submit bookmarks, there are many other important aspects to rankings, so please be sure to stick with this video...

You can submit your own pages **(Tier 1 Link Building)** and/or you can submit the pages that link to your own

What is SocialMonkee?

SocialMonkee is a **link building service** that allows you to easily create unique, dofollow backlinks to any page every day. Every time you submit a URL to SocialMonkee, the system submits it to a number of social bookmarking sites over a certain period of time. Each social bookmarking site has its own domain name and a unique C-Class IP address. Once the submission is fully completed, you get access to a link report (in the 'Reports' section inside the members area) so you can see the backlinks the system created for you.

Simple 3-Step Process

Why Use SocialMonkee?

The idea behind SocialMonkee is not only to increase your search engine rankings but also to increase the indexing speed of your pages. You can create backlinks to your own pages (Tier 1 Link Building), or to other pages that link to your own pages (Tier 2 Link Building).

Why Join SocialMonkee?

- ✓ SocialMonkee is only **\$7 (LIFETIME)** to join
- ✓ It allows you to build **25 BACKLINKS EVERY DAY**
- ✓ Each site has its own domain and **UNIQUE C-CLASS IP ADDRESS**
- ✓ Helps you dramatically increase the number of backlinks to your pages
- ✓ For faster indexing, better rankings, and more traffic...

SocialMonkee is only \$7 (Lifetime) to join, but once you have joined you can upgrade your account and get access to even more features and benefits, including the ability to submit more URLs to more sites (including PR sites) every day. Find more information on the different membership levels in the 'Upgrade' section of this user guide.

How to Use SocialMonkee

To submit a URL to SocialMonkee, you can either use the online submission form located in the 'Submit URL' section inside the members area (Option 1), or use the SocialMonkee Plugin (Option 2), which is available on both [Firefox](#) and [Chrome](#).

Option 1: Submitting a URL From The Members Area

To submit a URL from the members area, simply [log into your account](#) and go to the 'Submit URL' section. Fill in the form with the required details...

URL:

(must contain http://)

Title:

(Don't use any dashes or special characters)

Must be Spun, use at least 3 but up to 20 Versions in the format {title1|title2|title3}

Description:

(This is to describe the URL you're about to submit and shouldn't be longer than a few sentences.)

```
You can write text in here that won't be spun, to spin words or sentences use:
{description1|description2|description3|description4} on {every|each|all} word you
{want|choose|decide} to spin. Try and spin every 2nd or 3rd word.
```

Minimum 160 chars

1200

You can

enter max 1200 chars.

Must be Spun, use at least 3 but up to 20 Versions with 160 characters long in the format {desc1|desc2|desc3}

What spinner do you want to use to spin your description?

What's This?

Tags:

(Separated by comma, max 150 characters)

Must be Spun, use at least 3 but up to 20 Versions in the format {tags1|tags2|tags3}

Category:

We highly recommend that you spin your content, either manually or using [The Best Spinner](#) or [Spin Rewriter](#) (you will first have to enter your license details in your SocialMonkee Profile to do so) so the system generates different versions of your bookmark, so it looks more natural to the search engines, giving the backlinks even more value and helping your pages rank higher. Once done, click the 'Preview' button, and if everything looks fine click the 'Submit' button.

Option 2: Submitting a URL From The Plugin

To submit a URL to SocialMonkee from the Firefox or Chrome Plugin, you must first download and install application. Here is how to install the Firefox version and Chrome version of the SocialMonkee Plugin...

Firefox Plugin Installation (5 Quick & Easy Steps)

Step 1) Start Firefox, [log into your SocialMonkee account](#), and click the 'Get Plugin' link in the navigation menu. Then click the Firefox Download button located on the right of the page.

Step 2) Tick 'Open With', select '**Firefox**' and click '**OK**'

If Firefox is not in the list, select 'Other...' and search for the Firefox application. If you can't find it in the list, click 'Browse...' and search for the Firefox application.

Step 3) A software installation message should appear... Click the **'Install Now'** button.

You will then be asked to restart Firefox. Click the **'Restart Now'** button.

Step 4) You will then be shown a message that asks you if you want to allow this application. Tick the **'Allow this installation'** box and click **'Continue'**.

You will then be asked to restart Firefox again. Click the **'Restart Now'** button.

Step 5) You should then see the 'Monkee' head in your Add-on Bar. Click it, go to 'Please Login' and enter your login details. Once done, click the 'Monkee' head again, go to 'Submit URL' and fill in the submission form. In most cases the SocialMonkee Plugin will have auto-populated the fields with relevant information.

Don't See The 'Monkee' Head?

If you don't see the 'Monkee' head, make sure your Add-on Bar is turned on by going to: View > Toolbars > Add-on bar. If you still don't see it make sure the plugin was successfully installed by going to: Tools > Add-ons.

As a Silver Member, you can upgrade to Premium, and as a Premium Member you can upgrade to Elite. Upgrading directly from Silver to Elite is NOT possible. If you're a Silver Member and want to upgrade to Elite, you first have to upgrade from Silver to Premium, and then Premium to Elite.

What is The Ambassador Option?

SocialMonkee also has a membership add-on called Ambassador that you can take whether you're a Silver Member, Premium Member or Elite Member. This membership add-on allows you to:

- Submit 1 more URL every day
- Get 25 extra PR backlinks for every of your submissions
- Get your backlinks automatically submitted to Lindexed (\$19.97 / month value)
- Get access to our private Facebook group

How to Upgrade?

To upgrade from Silver to Premium or Premium to Elite, [log into your SocialMonkee account](#) and go to the 'Upgrade' section inside the members area. If you want to take the Ambassador option, log into your account and [visit this link](#).

Best Practices

Best Practice #1 - Backlink Boosting

While submitting your own pages to SocialMonkee can help you increase their search engine rankings, we recommend that you also build backlinks to pages that link to your own pages. This is what we call **backlink boosting**, so instead of building Tier 1 links to your own pages, you build Tier 2 links to 'boost' the backlinks to your own pages. That way you can easily pass link juice onto your Tier 1 links that then pass more link juice onto your site.

Best Practice #2 - Automated Spinning

If you want to use [The Best Spinner](#) or [Spin Rewriter](#) to automatically spin your descriptions, then make sure you first enter your license details in your SocialMonkee Profile. If you don't have a license yet, you can get one now at a discounted price:

- [Sign up to The Best Spinner](#) (with Special Discount for SocialMonkee Members only!)
- [Sign up to Spin Rewriter](#) (with Special Discount for SocialMonkee Members only!)

Once you have entered your license details on your SocialMonkee Profile, all you need to do when on the submission form is to enter an un-spun description, click the The Best Spinner or Spin Rewriter button, and the system will automatically spin your description content.

Best Practice #3 - Nested Spinning

SocialMonkee supports nested spinning, so you can spin your titles, descriptions and tags in multiple levels as in: {description 1 | description 2}

{{Benjamin | Ben} {likes | loves} donuts | {Michael | Mike} {likes eating | enjoys eating} donuts}

If you are not familiar with spinning, we suggest that you stick to one-level spinning for now.
